Fire Safety At Work

Introduction

It is a legal requirement for employers to provide information, instruction and training about fire safety in the workplace (Fire Safety Regulations – The Regulatory Reform (Fire Safety) Order 2005).
In this fire safety e-learning course your learners will gain the knowledge and understanding required to ensure they can act safely in the event of a fire as well as being able to apply principles that will help reduce the likelihood of fire occurring in the first place.

Apart from Schools, this course is free for Sefton Council employees. Charges apply for all other organisations:

• Individual license - £32 per person
• Group license (more than 10) - £27 per person

Please contact us at training.services@sefton.gov.uk if you wish to obtain a group licence.

By enrolling on this course you are agreeing to the terms set in our charging policy which can be found here. Once enrolled on this course, you will be billed accordingly.

Audience

This fire safety e-learning course is essential health safety training. It's particularly appropriate for people new to an organisation or for use as a refresher for existing employees.

Objectives

• Learn to appreciate why fire safety is important and how it can be prevented
• Understand the typical fire risks in the workplace, how it can spread and how fires are extinguished
• Know what to do when fire occurs, what different signs mean and how to ensure the safety of everyone
• Develop an understanding of fire regulations and the different roles of people during fires
• Help create a culture of positive fire safety practice in the workplace
