

Working at Height

Introduction

Falls from height are one of the biggest causes of workplace fatalities and major injuries, accounting for about 29% of fatal injuries to workers.

In this course, you'll look at some advice and some of the commonly held myths concerned with working at height.

Apart from Schools, this course is free for Sefton Council employees. Charges apply for all other organisations:

- Individual license - £32 per person
- Group license (more than 10) - £27 per person

Please contact us at training.services@sefton.gov.uk if you wish to obtain a group licence.

By enrolling on this course you are agreeing to the terms set in our charging policy which can be found [here](#). Once enrolled on this course, you will be billed accordingly.

Audience

Anyone who works from heights as part of their role.

Objectives

At the end of this e-Learning users will be able to:

- Explain what Working at Height actually means
- Describe a range of methods of preventing accidents
- List a range of protection methods
- Explain how to use appropriate equipment correctly
